

Solar Seal has the capability to create both standard and one-of-a-kind sandblasted images. We stock a variety of patterns that allow for different spacing options in order to provide you with the correct amount of coverage for your project. We also have the art capabilities to reproduce logos and images to your specifications within a reasonable time frame. Contact your salesperson or your customer service representative for more information.

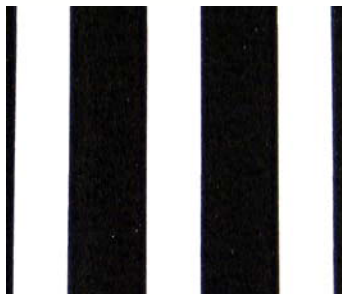

Standard Pattern "Diamonds"

Diamonds are 12mm x 12mm with fixed vertical spacing of 19mm between points. Rows may be omitted and width spacing may be specified to allow for more or less coverage.

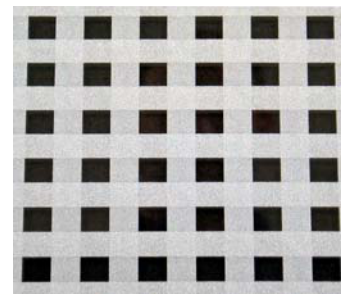

Standard Pattern "Circles"

Circles are 5mm in diameter with fixed vertical spacing of 22mm from rim to rim. Rows may be omitted and width spacing may be specified.

Standard Patterns "Stripes"

Stripes are 1/2" thick with 1/2" clear lines or, Stripes are 20mm thick with 30mm spacing in between. Stripes may be skipped for added spacing in between.

Standard Pattern "Hatched"

Stripe patterns may be combined to allow for a hatched look. This can be an especially neat effect on mirror with one set of stripes on the front and the second set on the back, creating a 3D effect.
